

An arrangement 4" to 9"

Size is all important in this arrangement. It must fit the brief of larger than 4" but smaller than 9". The best way to ensure this is to cut an aperture/bridge 9"x9" and rotate it around your finished arrangement.

Your plant material should be in scale to the container and theme. You can wire your materials and add trimmings or extras but they must all fit within the scale [4x9]

Use some sort of container to hold water or oasis to ensure your materials stay fresh, and if possible test your materials a before you need them to ensure they will stay fresh through the day. Keep them cool and spray them if you wish. Points will be deducted for poor material [wilted, misshaped or marked]. Containers and accessories should be pristine.
